1. A meeting of the Communist engineers of the Paris region, organized by the Central Committee of the French Communist Party and the Seine Federation of the Party, was scheduled to be held towards the end of June 1950 to acquaint the engineers with the tasks they are expected to perform in the "struggle for peace". The Party planned to remind them of the important role they could play in obstructing the manufacture of war materiel in the Paris area. The meeting was to be held at the Party headquarters of the Paris region at 120 rue Lafayette and Andre Marty, Political Bureau member, was expected to preside.
2. Adolphe Andrejean, Secretary General of the General Union of Engineers and Cadres, and Raoul Fenykovy, Assistant Secretary General of the Paris Regional Union of Engineers and Cadres, were expected to attend the meeting. Fenykovy, an employee of Electricite de France (Research Division, 3 rue de Messine) is reportedly one of the potential leaders of the Communist engineers of the Paris region.
